Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-17 are rejected under 35 U.S.C. 102(b) as being anticipated by Woldhuis for reasons of record.

Applicant urges that Woldhuis does not teach branched chain fatty acids. This has been considered but is not persuasive because the branched chain fatty acids are optional components of the compound.

Applicant urges that Woldhuis does not contain a first and second food component. This is disagreed with. The first food component is coated with a second food material.

Applicant urges that Woldhuis is a thick, wax-like coating and would not be an appropriate barrier because it would not be imperceptible to the consumer. This has been considered but is not persuasive because there is no unobvious difference in the thickness of the coating of Woldhuis and the coating of the claims. Applicant argues that the coating in Woldhuis is not edible. This argument has been considered but is not persuasive. The

coating would be expected to be digestible. The fact that one may not choose to consume it does not render the food inedible.

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-44, 47 and 49 are rejected under 35 U.S.C. 103(a) as being unpatentable over Woldhuis for reasons of record.

Applicant urges that Woldhuis does not teach branched chain fatty acids. This has been considered but is not persuasive because the branched chain fatty acids are optional components of the compound.

Applicant urges that Woldhuis does not contain a first and second food component. This is disagreed with. The first food component is coated with a second food material.

Applicant urges that Woldhuis is a thick, wax-like coating and would not be an appropriate barrier because it would not be imperceptible to the consumer. This has been considered but is not persuasive because there is no unobvious difference in the thickness of the coating of Woldhuis and the coating of the claims. Applicant argues that the coating in Woldhuis is

not edible. This argument has been considered but is not persuasive. The coating would be expected to be digestible. The fact that one may not choose to consume it does not render the food inedible.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Carolyn A Paden whose telephone number is (571) 272-1403. The examiner can normally be reached on Monday to Friday from 7 am to 3:30 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Milton Cano, can be reached on (571) 272-1398 or by dialing 571-272-1700. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
